THE OHIO STATE UNIVERSITY
COLLEGE OF PUBLIC HEALTH

OPEN FACULTY SEARCH

The College of Public Health at The Ohio State University is searching for outstanding candidates for regular tenure-track and tenured faculty positions at the rank of Assistant, Associate or Full-Professor. We especially welcome candidates interested in addressing significant public health challenges facing Ohio and the nation, such as high infant mortality, tobacco control, food insecurity, health disparities, the epidemic of opioid use as well as the transformative changes in health care delivery. Additional areas of research include global health and the university-wide Discovery Theme (discovery.osu.edu) foci on health and wellness, food production and security, and energy and environment.

The College of Public Health is fully accredited by the Council on Education for Public Health. It offers master's degrees in professional practice and research and it offers doctoral degrees. The specializations include biostatistics, epidemiology, health behavior and health promotion, environmental health sciences, health services management and policy, veterinary public health, clinical translational science, biomedical informatics, and health administration. The college also offers an undergraduate major and minor. For additional details about the College of Public Health, please visit the website at cph.osu.edu.

Located in the state capital and a metropolitan area of more than 1.5 million, The Ohio State University offers excellent opportunities for interaction with academic colleagues, clinical and public health practitioners, and policymakers. As one of seven health sciences colleges, the College of Public Health is part of the most comprehensive health sciences campus in the nation.

A doctoral degree in the areas of public health, quantitative data science, medicine, or a related discipline is required. Successful candidates will be able to help shape the direction of the College of Public Health as it continues to evolve and expand. Successful candidates will be expected to develop and sustain an independent research program, participate in the teaching and advising of students, and provide service to the college, university and local community.

Rank, salary, and divisional home will be determined by the candidate's experience and productivity. For appointment to a tenured position, applicants must have a strong record of funded research and peer-reviewed publications. Applications will be considered as they arrive and the date of appointment is open to negotiation.

Applicants are asked to submit a cover letter, a statement of research, a statement of teaching interests, a current curriculum vitae, and copies of two (2) recent publications. Finalist candidates will be asked to supply letters of recommendation. Applications are accepted through Academic Jobs Online: https://academicjobsonline.org/ajo/jobs/7738.

The Ohio State University is committed to establishing a culturally and intellectually diverse environment, encouraging all members of our learning community to reach their full potential. We are responsive to dual-career families and strongly promote work-life balance to support our community members through a suite of institutionalized policies. We are an NSF Advance Institution and a member of the Ohio/Western Pennsylvania/West Virginia Higher Education Recruitment Consortium (HERC).

The Ohio State University is an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation or identity, national origin, disability status, or protected veteran status.
