

## **Public Health Sanitarian Supervisor (Pontiac, MI)**

**Application Deadline:** 12/01/09

### **Position Description:**

#### Description of Work

Under direction, plans, organizes, supervises, and evaluates the more complex and specialized Environmental Health Services programs relating to water quality, shelter, and land protection as well as the on going activities of the general Environmental Health Services field staff. Provides advanced technical assistance to lower level assigned staff as necessary to resolve unusual or complex environmental health problems. Assists the Chief in ensuring compliance with state and county codes and regulations relating to environmental health issues. Analyzes current programs and/or need areas and recommends system revisions or other necessary policy or procedural changes. Utilizes current county-wide and/or department specific software to complete assignments. Please click the link below for more info.
