

Data/Health Analyst

Health Integrity, LLC is seeking to fill multiple positions for Data/Health Analysts to work on various Program Integrity projects under contracts with the Centers for Medicare and Medicaid. The positions require at least 1 year experience in data analysis as well as demonstrated experience and knowledge of health care claims data. Experience with a programming language such as SAS is also required. Familiarity with ICD-9 codes; physician specialty codes; pharmaceutical data, including NCPDP file formats and codes; provider identifiers; etc. is preferred. Experience working on quality improvement or research projects or in the health care industry is preferred. The candidate must possess strong analytical skills and be able to present findings concisely to non-analytic users. Bachelor's degree in public health, statistics, or similar research methodology field required; Master's degree or commensurate experience in a research field preferred. The positions are located in Easton, MD, on Maryland's Eastern Shore.

Health Integrity, LLC is a highly successful and rapidly growing not-for-profit company with a passion for excellence. We offer an attractive compensation package with the opportunity for professional growth. Affirming equal opportunity in principle and practice, we are committed to developing a diverse workforce.
