

**Study Coordinator Position Available
Center for Injury Research and Policy
Nationwide Children's Hospital, Columbus, Ohio**

Dr. Motao (Matt) Zhu, Courtesy faculty of Division of Epidemiology, is seeking a study coordinator. Dr. Zhu is a professor of pediatrics and epidemiology at OSU. He is further a principal investigator at the Center for Injury Research and Policy (CIRP) at Nationwide Children's Hospital. Dr. Zhu teaches PUBHEPI 6432 Injury Epidemiology, and mentor master's and doctoral students at OSU CPH. CIRP is one of nine Injury Control Research Centers funded by the Centers for Disease Control and Prevention (CDC). For more information, visit <https://www.nationwidechildrens.org/research/areas-of-research/center-for-injury-research-and-policy/meet-our-team/motao-zhu-team>

Position description and responsibilities:

- Provide direct support to a National Institute of Health funded study on cell phone use while driving (R01: Randomized trial on mobile technology to reduce young drivers' cellphone use)
- Provide direct support to various research projects in transportation safety or drug use disorders
- You will be responsible for:
 - Recruiting study participants
 - Administering questionnaires and interviews
 - Managing study timelines and ensuring IRB compliance

Position Requirements:

- Undergraduate degree with a major in public health or related field
- Experience in participant recruitment is preferred but not required
- Be able to start in summer 2024
- 20-40 hours per week; flexible schedule to accommodate classes

Application Information:

- To apply please contact: Maggie.Sarle@NationwideChildrens.org
- Please include the following materials
 - Resume
 - Transcript of classes taken (official transcript not necessary)
 - A writing sample from a course project, practicum, or thesis

Position Benefits

- Funds available for national conference
- Ability to work with experts in the field of transportation safety/substance misuse in a nationally recognized injury center
