

TASLEEM JUANA PADAMSEE

College of Public Health, The Ohio State University
280-F Cunz Hall, 1841 Neil Avenue
Columbus, OH 43210

Email: padamsee.1@osu.edu
Tel: (614) 688-0986
Fax: (614) 292-3572

EDUCATION

Ph.D. in Sociology (2007), University of Michigan, Ann Arbor, Michigan

Dissertation: “Infusing Health into the Welfare State: AIDS Policy Making in the United States and the United Kingdom.” Committee: Julia Adams and Renee Anspach (co-chairs), Howard Kimeldorf (Sociology), Anthony Chen (Sociology), Paula Lantz (Public Health)

M.A. in Sociology (2000), University of Michigan, Ann Arbor, Michigan

Graduate Certificate in Women’s Studies (2000), University of Michigan, Ann Arbor, Michigan

B.A. in Psychology and Premedical Studies (1994), Cornell University, Ithaca, New York

ACADEMIC APPOINTMENTS

The Ohio State University – Health Services Management & Policy, College of Public Health

2019 – present	Doctoral Program Director
2015 – present	Assistant Professor
2015 – present	Faculty Affiliate, Cancer Control Program, James Comprehensive Cancer Center

The Ohio State University – College of Arts and Sciences

2011 – 2015	Research Scientist, Institute for Population Research
2011 – 2015	Visiting Scholar, Department of Sociology
2009 – 2011	Social and Behavioral Sciences Diversity Postdoctoral Fellow
2009	Adjunct Instructor, Department of Sociology

Ohio Wesleyan University – Department of Sociology and Anthropology

2008 – 2009	Adjunct Instructor
-------------	--------------------

Online Universities

2013 – 2014	Adjunct Assistant Professor, Department of Sociology, Baker College Online, Flint, Michigan
2012 – 2014	Adjunct Online Professor, Department of Sociology, Grantham University, Lexana, Kansas
2008 – 2009	Adjunct Online Professor Ashford University, Clinton, Iowa

HONORS AND AWARDS

Excellence in Teaching Award, The Ohio State University College of Public Health, 2018
 Distinguished Undergraduate Research Mentor Award, The Ohio State University, 2018
 Best Poster Prize, Population Sciences, Annual Scientific Meeting of the OSU James
 Comprehensive Hospital and Solove Research Center, 2016
 Top 18 Abstracts Selection, American Society for Preventive Oncology, 2015
 Martin Levine Graduate Student Paper Award, Sociologists' AIDS Network, American Sociological
 Association, 2006

RESEARCH

RESEARCH INTERESTS

Breast Cancer Prevention; Health Disparities; U.S. Health Policy; Health Care Institutions; Women's Health; Comparative Health Politics; HIV/AIDS Policy; Qualitative Research Methods; Comparative and Historical Research Methods; Medical Sociology; Political Sociology; Feminist Theory

RESEARCH STATEMENT

The core of my scholarly interests is the intersections of health care, public policy, and social inequality. What unifies my research is exploring, usually by collecting and analyzing original data, how health care systems respond – and fail to respond - to the health needs of socially disadvantaged populations.

Preventing cancer among high-risk women

Since arriving in the OSU College of Public Health, the bulk of my research has focused on understanding how diverse women at high risk of breast or ovarian cancer make decisions about managing those risks. Initially funded by a 5-year K01 grant from the National Cancer Institute and now unified under the umbrella of the *Daughter Sister Mother Project*, my work fills critical gaps in the existing body of cancer prevention research by (a) aiming to understand experiences and needs of the full range of high-risk women – not just *BRCA* mutation carriers or those in high-risk clinical care, (b) prioritizing women's own complex, real-world approaches to cancer risk and risk management instead of narrower, medically-oriented questions about those women, and (c) documenting and explaining racial, socioeconomic, and other disparities in the dynamics and outcomes of risk-related decision making.

This research trajectory began with a substantial qualitative inductive study of African American and White women at elevated risk for breast cancer. Peer-reviewed articles published from this work establish that women's experiences with the cancers of loved ones affect their own prevention decisions, that the psychosocial challenges of oophorectomy differs for women undergoing that surgery for cancer prevention vs. other purposes, and that there are substantial racial disparities in women's access to prevention-related information. Additional empirical papers are currently under review about chemoprevention awareness and decisions among eligible women, about the full range of racial differences in decision-making dynamics, and about the impact of financial constraints on decision making. Additional manuscripts in development for submission to peer-reviewed outlets in the next year explore the role of romantic partners in prevention decision making, the role of risk-specific social support in

copied with risk, the impacts of patient-provider relationships on women's ability to cope with breast cancer risk, and the overarching dynamics of risk-management decision making. I am the first or senior author on all these papers, which have also generated co-authoring opportunities for multiple graduate students and members of my research staff.

These research products have garnered substantial public and scholarly attention: I have presented multiple invited seminars at OSU venues and at City of Hope Comprehensive Cancer Center in Los Angeles; a review article published in 2017 has already been cited in 15 published articles; abstracts have been selected for "Top Abstract" or oral presentation recognition; and two publications have generated mainstream media attention. My article published in *Ethnicity & Health* resulted in interviews with *BBC World News Radio*, *NPR's InfoTrak*, and other radio shows, as well as print, online, and local TV coverage, and is rated among the top 5% of all research outputs scored by altmetric.com for media impact.

In the second phase of this project, conducted over the past two years, our *Daughter Sister Mother* team designed and collected a large dataset that will enable us to test a range of novel hypotheses developed from the initial inductive research. To achieve this, we developed and tested quantitative survey items to operationalize concepts generated by the qualitative interview-based study, and constructed an instrument to collect data from White and African American women at high risk for breast cancer. Data collection was completed in August 2019, yielding an unusually large sample of 717 high-risk participants, half of whom come from the rarely studied non-clinical high-risk population. Including a much higher proportion of non-White participants (35% African American) than any other quantitative dataset in this area of study, ours is uniquely positioned to address questions about racial disparities related to risk-reduction dynamics. We have begun analyzing these data, and are focusing first on writing empirical papers about (a) the unique nature of our study design and contributions of the dataset itself, (b) modeling breast cancer risk using a population-based sample, (c) extent to which high-risk women are aware of and use risk-reduction options, and (d) racial disparities in risk-reduction awareness and use. We also plan to publish papers about the methods we developed to resolve problems involved in collecting a non-clinically-focused sample, about the applicability of the precaution adoption process model to coping with cancer risk, and other topics.

Since 2017, I also launched four new projects stimulated by the findings reviewed above. First, I have conducted two pilot studies on the role of social support and support groups in nurturing health-protective decisions among women at high risk of breast cancer. Based on these, I submitted an R01 application (National Cancer Institute, June 2019) to study risk-related social support systematically among White, African American, and Hispanic women in four U.S. regions. Although not yet funded, this application resulted in a subsequent Cancer Control Program Seed Grant, which will fund preliminary work to strengthen a revised R01 application. Second, building on our findings about the importance of primary care providers in women's ability to obtain and process risk information, I have obtained a 2-year grant from the Spielman Fund (OSUCCC-James) to launch a new project investigating the impact on patients and providers of risk assessment through regular mammogram screening. Third, I am beginning a study among Latinas and Asian American women at high risk for breast cancer that will mimic the foundational qualitative work we have already done with African Americans and Whites. Funded by the Coca Cola Critical Difference for Women Research Grant, this pilot work will be facilitated by my collaboration with researchers at City of Hope Comprehensive Cancer

Center in Los Angeles. Finally, I am designing – in conjunction with OSUCCC’s High Risk Breast Program – one of the first-ever cohort studies of high-risk women in clinical care, to study decision making and psychosocial health over time.

Comparative HIV/AIDS policy

Before embarking on breast cancer prevention work, my primary line of research involved a large-scale comparative study of HIV/AIDS policy in the United States and the United Kingdom since the early 1980s. This multi-method research involved collecting more than 200 key informant interviews with policy makers and advocates in both countries, over 20,000 reports from daily newspapers since 1989, and an extensive compilation of additional historical data. Since joining CPH I have published two articles based on this work – in *Journal of Health Politics, Policy, and Law* and *Social History of Medicine*. These articles supplement prior book chapters published in two edited volumes, one of which won a Best Paper Award from the Sociologists’ AIDS Network. I intend to return to this topic in about 2 years, and to complete my book manuscript. Tentatively titled *Answering AIDS: The United States and the United Kingdom Confront a Health Policy Crisis*, the book argues that neither institutional nor cultural explanations adequately account for distinct British and American policy trajectories. Instead, *Answering AIDS* advances an integrated model of health policy-making that explains treatment, prevention, and research policies as products of the patterned and interdependent influences of social and political institutions, circulating discourses, and political mobilization. Editors at several university presses (including Stanford University Press and University of Minnesota Press) have expressed substantial interest in the book. I have also published three well-cited theoretical articles on the influence of ideas on policy making in and beyond the health arena.

Collaborative projects

Finally, I maintain ongoing collaborations with several research teams. I lead all qualitative components of a major 3-year PCORI-funded project (Project PI: Gary Franklin at University of Washington, OSU PI: Thomas Wickizer) titled, “Comparative Effectiveness of Two State Payer Strategies to Prevent Unsafe Opioid Prescribing and Improve Outcomes for Injured Workers with Musculoskeletal Injuries and Pain.” I also lead qualitative data collection and analysis work for a Pelotonia-funded project (PI: Clara Lee) that uses an original, patient-controlled method of data collection to study communication between breast cancer patients and their physicians about contralateral prophylactic mastectomy. My ongoing work with collaborators at OSU and elsewhere on a financial effects of cancer diagnoses have so far yielded one paper based on Women’s Health Initiative data (*Cancer Medicine*, first author Theresa Hastert). I have also been working with a large cancer health equity team at OSU (PI: Electra Paskett) to develop “Turning the Page on Breast Cancer” – a major new funded project to improve high-risk identification and risk-reduction education among African American women in Ohio. This same cancer health equity is simultaneously working to build active community-based partnerships with African American communities in Columbus, and I am helping lead this effort. Finally, with OSU collaborators in Biomedical Sciences and Clinical Genetics, I have recently collaborated on a R01 Cancer Health Disparities Supplement (PI: Jeffrey Parvin; under review Spring 2020) aiming to improve the capacity of African American-serving primary care providers to convey genetic information to patients.

GRANTS AND FELLOWSHIPS

As Principal Investigator

Addressing COVID-19 in Vulnerable Populations

Multiple Principal Investigator, with Julianna Nemeth

Funder and Mechanism: Private donor

Total Budget: \$67,335

September 2020

Identifying Risk-Related Social Support Needs among Women at Hereditary Risk of Breast Cancer

Funder and Mechanism: OSUCCC Cancer Control Program Seed Award

Total Budget: \$20,000

January 2020 – June 2020

Risk Screening in Mammography

Funder and Mechanism: Spielman Fund Research Grant

Total Budget: \$128,000

August 2019 – July 2021

Breast Cancer Prevention Decision Making among High-Risk Latinas and Asian American Women

Funder and Mechanism: Coca Cola Critical Difference for Women Research Grant

Total Budget: \$4000

June 2018 – May 2020

Preventing Breast Cancer: Decisions and Effects among Women at Elevated Risk

(Award # CA181547-01)

Funder and Mechanism: K01, National Cancer Institute, National Institutes of Health

Total Budget: \$583,059

September 2014 – August 2020

REAP Award – for Principal Investigators on National Cancer Institute Grants

Funder and Mechanism: The Ohio State University Comprehensive Cancer Center

Total Budget: \$6124

September 2016 – June 2019

National Decisions in a Changing Epidemic: Making HIV/AIDS Policy for American Minorities and British Immigrants

Funder and Mechanism: Ruth Landes Memorial Research Fund, The Reed Foundation

Total Budget: \$14,000

September 2010 – August 2011

National Decisions in a Changing Epidemic: Immigration, Gender, and the Making of British HIV/AIDS Policy since 1995

Funder and Mechanism: Travel Grant, Wellcome Trust

Total Budget: \$2400

September 2010 – August 2011

Postdoctoral Research on HIV/AIDS Policy Making in the United States and United Kingdom
Funder and Mechanism: Social and Behavioral Sciences Small Grant, The Ohio State University
Total Budget: \$1000
September 2010 – August 2011

As Co-Investigator

Rapid Acceleration of Diagnostics - Underserved Populations (RADx-UP)
Multiple-Principal Investigators: Electra Paskett (The Ohio State University) & Rebecca Jackson (The Ohio State University)
Funder: NIH; administrative supplement to CTSA parent grant UL1TR002733
Total Budget: \$3,643,333
September 2020 – May 2021

COVID-19 Recovery and Response Project
Principal Investigator: Andrew Miller and Julianna Nemeth (The Ohio State University)
Funder: Ohio Department of Health
Award: \$71,273
August – December 2020

Comparative Effectiveness of Two State Payer Strategies to Prevent Unsafe Opioid Prescribing and Improve Outcomes for Injured Workers with Musculoskeletal Injuries and Pain
Principal Investigator: Gary Franklin (University of Washington)
Funder: Patient-Centered Outcomes Research Institute (PCORI)
Total Budget: \$4,300,000
January 2019 – December 2021

Communication about Contralateral Prophylactic Mastectomy
Principal Investigator: Clara Lee (The Ohio State University)
Funder and Mechanism: Pelotonia Intramural Research Program (IDEA Grant), The Ohio State University James Comprehensive Cancer Center
Total Budget: \$100,000
January 2017 – December 2019

As Doctoral Student

Rackham One-Term Dissertation Fellowship
Funder and Mechanism: Horace H. Rackham Graduate School, University of Michigan
Total Budget: Stipend plus tuition
Fall 2007

Dissertation Improvement Grant
Funder and Mechanism: Sociology Program, National Science Foundation
Total Budget: \$7500
Fall 2004 – Spring 2005

International Dissertation Field Research Fellowship [Awarded but Declined]
Funder and Mechanism: Social Science Research Council

Tasleem J. Padamsee. “Disintegration or Discrimination: Political Discourse around the Defense of Marriage Act.” 1999. 8th Annual Sociology Graduate Student Conference (oral presentation), March, Ann Arbor, MI

Tasleem J. Padamsee. “Re-theorizing Anorexia Nervosa: Implications of a Race/Class/Gender Approach.” 1998. Workshop on Historical Sociology (oral presentation), October, Ann Arbor, MI

Tasleem J. Padamsee. “The Medical Construction of Anorexia Nervosa: Implications of a Race/Class/Gender Approach for Theory and Practice.” 1998. *Feminists at Work: Multicultural Influences on Practice* (oral presentation), Institute for Research on Women and Gender, October, Ann Arbor, MI

TEACHING

TEACHING AWARDS

Excellence in Teaching Award, The Ohio State University College of Public Health, 2018

Distinguished Undergraduate Research Mentor Award, The Ohio State University, 2018

TEACHING INTERESTS

Health Care Systems; Health Policy; Qualitative Research Methods; Health Disparities; Health Research Logic, Design, and Analysis; Medical Sociology; Political Sociology; Gender and Sexuality

COURSE DESIGN EXPERIENCE

Qualitative Methods for Health Research. College of Public Health, The Ohio State University. Designed new doctoral level course for students in public health, and other health and social sciences, to teach foundations of qualitative and multi-method research design as well as study execution, analysis, presentation, and publishing skills.

U.S. and International Health Care. College of Public Health, The Ohio State University. Substantially re-designed upper-level undergraduate course introducing students to the U.S. healthcare system. Added emphasis on political processes and international context, interactive and active learning exercises; term-long group project comparing the responses of several national health systems to the same health challenge. Re-designed course to be coordinated by a teaching team across multiple sections, led teaching teams.

DOCTORAL DISSERTATION COMMITTEES

Schreiber, Lena. 2019-present. “Nurse Practitioner Integration into Primary Care in the United States.” The Ohio State University College of Public Health. Committee member.

Bernardo, Brittany. 2015 – 2020. “The Association of Socioeconomic Status with Cervical Cancer Risk Misperceptions, Pap Smear Screening Uptake, and Cervical Outcomes among Ohio Appalachian Women.” The Ohio State University College of Public Health. Committee member.

Prater, Wesley. 2015 – 2019. “To Expand or Not Expand Medicaid? That is the Republican Governor’s Question.” The Ohio State University College of Public Health. Committee member.

GRADUATE STUDENTS MENTORED

Balasca, Coralia. 2020 – present. PhD program in Sociology, The Ohio State University. Candidacy committee member.

Hyman, Sarah. 2019 – present. PhD Program in Health Services Management and Policy, The Ohio State University College of Public Health. Advisor.

Patel, Hiten. 2019 – present. MPH Program for Experienced Professionals, The Ohio State University College of Public Health. Advisor.

Bijou, Christina. 2019 – present. PhD Program in Sociology, The Ohio State University. Research Mentor.

O'Rourke, Brian. 2019 – present. PhD Program in Health Services Management and Policy, The Ohio State University College of Public Health. Advisor.

Chettri, Shibani. 2018 – present. PhD Program in Epidemiology, The Ohio State University College of Public Health. Research Mentor and Candidacy Committee Member.

Schreiber, Lena. 2018 – present. PhD Program in Health Services Management and Policy, The Ohio State University College of Public Health. Candidacy Committee Member.

Meadows, Rachel. 2015 - present. PhD Program in Epidemiology, The Ohio State University College of Public Health. Research Mentor.

Crane, Misti. 2018 – 2019. Master's in Health Behavior and Health Promotion, The Ohio State University College of Public Health. Culminating Project Reader.

Patel, Sanjay. 2017 – 2019. MPH Program for Experienced Professionals, The Ohio State University College of Public Health. Advisor.

Muraveva, Anna. 2015 – 2019. PhD program in Sociology, The Ohio State University. Research Mentor.

UNDERGRADUATE STUDENTS MENTORED

Senior Honors Thesis Students– The Ohio State University

Khalil, Rana. 2016 - 2017. Honors in Public Health. Advisor.

Fitzpatrick, Olivia. 2016. Honors in Psychology. Reader.

Zvavitch, Polina. 2015 – 2016. Honors in Sociology. Reader.

Research Mentees – The Ohio State University

O'Toole, Lilly. 2021 – present

Turner, Jordan. 2020 – present

Feudo, Sam. 2020 – present

Middleton, Carly. 2019 – present

Eidson, Brad. 2019 – present

Rickman, Allison. 2019 – 2020

Cizek, Natalie, 2018 – 2019

Research selected for oral presentation at Denman Undergraduate Research Forum and poster presentation at College of Public Health Research Day

Suli, Elvia. 2018 – 2019

Research selected for oral presentation at Denman Undergraduate Research Forum and poster presentation at College of Public Health Research Day.

Marston, Kendal (Notre Dame University student). 2018 – present

Wolf, Julia. 2018 – 2019

Doshi, Anjali. 2017 – 2018

Presented research poster at Denman Undergraduate Research Forum

Kaple, Karsen. 2017 – 2018

Completed capstone research project and presented poster at Denman Undergraduate Research Forum

Myrtaj, Enxhi. 2017 – 2018

Presented research poster at Denman Undergraduate Research Forum

Tran, Theresa. 2017 – 2018

Presented research poster at Denman Undergraduate Research Forum

Wauschek, Emma. 2017 – 2018

Presented research poster at Denman Undergraduate Research Forum

James, Kyesha (Central State University student). Summer 2017.

Lewis, Kaela. 2017

Completed capstone research project and presented poster at Denman Undergraduate Research Forum

Angeli-Reyes, Melissa. 2016 – 2018

Presented research poster at Denman Undergraduate Research Forum

Ball, Caleb. 2016 – 2017

Presented research poster at Denman Undergraduate Research Forum; selected for invited oral presentation at the Summer Undergraduate Research Conference at the University of Edinburgh

Kerr, Hallie. 2016 – 2017

Presented research poster at Denman Undergraduate Research Forum

COURSES TAUGHT

The Ohio State University College of Public Health – Graduate Courses

Precandidate Research in Public Health. Spring 2021.

Doctoral level research experience and training for student in Health Services Management and Policy.

Culminating Project in Public Health. Spring 2021

Helped design and supervised clinical research project for MPH student in the Program for Experienced Professionals.

Practicum in Public Health. Fall 2020

Supervised practicum for MPH student in the Program for Experienced Professionals.

Qualitative Methods for Health Research. Spring 2020, Spring 2021

Doctoral level course. Combination practicum and survey class in qualitative research methodology, emphasizing research design, epistemology, data collection, analysis, and presentation skills.

Health Policy Seminar. Fall 2019

1-credit seminar for PhD students in Health Services Management and Policy, to supplement their master's level Introduction to Health Policy course.

Doctoral Seminar in Health Services Management and Policy.

Fall 2019, Spring 2020, Fall 2020, Spring 2021

Required seminar for PhD students, exploring research in the field of Health Services Management and Policy, professionalization topics, and student's works-in-progress.

Post-Candidacy Research in Public Health. Summer 2018

Supervised PhD student completing dissertation research, analysis, and writing.

Individual Studies in Health Services Management and Policy.

Summer 2017, Spring 2017, Fall 2020, Spring 2021

Supervised independent study courses for PhD students in public health, training them in advanced qualitative research, analysis, and manuscript-writing.

The Ohio State University College of Public Health – Undergraduate Courses

Research in Public Health. Fall 2020

Designed, coordinated, and supervised independent research experiences for undergraduate students in public health.

U.S. and International Health Care. Spring 2016, Fall 2016, Fall 2017, Fall 2018

Interactive lecture and active-learning course introducing 40-99 students per semester to central components of the U.S. health care system, and comparing organization, financing, quality, and system challenges in international context.

Individual Studies in Public Health. Every semester from Spring 2016 – present

Designed, coordinated, and supervised independent research experiences for 1-6 undergraduate students per term, often culminating in student presentations at the OSU Denman Forum for Undergraduate Research and/or other venues.

Senior Honors Thesis. Fall 2016

Taught and supervised undergraduate honors student through 14 months of senior honors thesis work, including IRB application, research project, production of research poster and final thesis.

The Ohio State University Department of Sociology – Undergraduate Courses

Integrated Elective in Undergraduate Research. Fall 2010 – Fall 2012

Designed tailored course for 1-4 advanced undergraduate students per term; conducted one-on-one training; supervised archival research and coding of qualitative data.

Introduction to Sociology. Winter 2009

Designed and taught undergraduate course introducing students to sociological inquiry, evidence, theory, and core substantive areas of the discipline.

Ohio Wesleyan University Department of Sociology and Anthropology – Undergraduate Courses

Introduction to Sociology. Winter 2009

Designed and taught course introducing students to sociological inquiry, evidence, theory, and core substantive areas of the discipline.

Self and Society. Fall 2008

Designed and taught course exploring relationships between social inequality and individual life experience.

Online Universities – Undergraduate Courses

Cultural Diversity. Baker College Online. Fall 2012 – Summer 2014, Fall 2016

Taught 8 sections (14 students each) introducing students to sociological theories and research on race, ethnicity, and cultural diversity in the United States.

Social Problems. Baker College Online. Spring 2013 – Summer 2014

Taught 3 sections (14 students each) introducing students to sociological theories and methods pertaining to the study of social problems.

Introduction to Sociology. Grantham University. Fall 2012 – Summer 2014

Taught 12 sections (averaging 20 students each) introducing students to concepts, theories, and methods of sociology.

Technology and Society. Grantham University. Fall 2012 – Summer 2014

Taught 10 sections (averaging 20 students each) introducing students to sociological perspectives on the mutual relationship of society and technology.

Social Anthropology. Grantham University. Fall 2012 – Summer 2014

Taught 5 sections (averaging 3 students each) introducing students to the discipline, methods, and theories of social anthropology.

Sociology. Baker College Online. Spring 2014

Taught 2 sections (14 students each) introducing students to concepts, theories, and methods of sociology.

Social Problems. Grantham University. Fall 2012 – Spring 2013

Taught 3 sections (averaging 8 students each) of second-level course introducing students to core concepts and findings within sociology.

Philosophy of Human Conduct. Ashford University. Fall 2008 – Spring 2009

Taught 3 sections (averaging 32 students each) of a first-year course in general philosophy and critical thinking.

University of Michigan Department of Sociology – Undergraduate Courses

Sociology Undergraduate Research Opportunity. Fall 1998 – Winter 2003

Supervised 1-4 advanced undergraduate students per term in library research, bibliographic data entry, and writing article summaries.

Introduction to Medical Sociology. Spring 1999, Spring 2000

Designed and taught advanced course for 40+ undergraduates each term, emphasizing reading original research and thinking critically about medicine and health care.

University of Michigan Department of Sociology – Teaching Assistant Roles

Graduate Statistics. Fall 1997 – Winter 1999

Taught laboratory sessions for introductory graduate level statistics course; tutored students individually; graded problem sets and exams.

Principles of Sociology. Fall 1998

Taught discussion sections in introductory sociology. Led group discussions; encouraged students to think sociologically about their experiences; designed homework assignments to teach critical thinking; graded papers and exams.

Detroit Area Study. Winter 1998

Assisted in organization, training, and teaching of a graduate level research practicum in survey methodology. Assisted in design of survey instrument for the “Detroit Area Study 1998,” trained and supervised interviewers, processed incoming data.

CONSULTANT AND FACILITATOR POSITIONS

Certified Coach for the Faculty Success Program. Spring 2013, Summer 2013

National Center for Faculty Development & Diversity (NCFDD)

Coached small groups of faculty members and graduate students participating in a semester-long “bootcamp” designed to improve writing productivity and work/life balance for academics.

Graduate Teaching Consultant. Fall 2003 – Fall 2004

Center for Research on Learning and Teaching, University of Michigan

Assisted graduate student instructors across the university in improving their teaching through individual consultations, classroom observations, and midterm student feedback sessions.

Facilitator for New Graduate Student Seminars. Fall 1999, Fall 2000

Department of Sociology, University of Michigan

Helped design curriculum and coordinated speakers to help first-year graduate students make a successful transition to graduate school.

Coordinator of Safer Sex Peer Education Program. Fall 1994 – Spring 1997

Student Health Services, University of Michigan

Re-designed curriculum for safer sex peer education program for undergraduates using module-based approach; re-designed and implemented new training for peer educators, supervised peer educators.

SELECTED INVITED PRESENTATIONS ON TEACHING

Panel of “Excellence in Teaching” Award Winners. 2018, 2019

Graduate Teaching Seminar. Division of Epidemiology, College of Public Health, The Ohio State University. Participated in a panel discussion about best practices in teaching, for Epidemiology PhD students.

Getting Started: Graduate Student Instructors Teaching Graduate Students. 2004

Center for Research on Learning and Teaching, University of Michigan. Designed and facilitated a workshop for new graduate student instructors on the challenges involved in teaching their peers.

Practice Teaching Workshop. 2004

Center for Research on Learning and Teaching, University of Michigan. Facilitated a workshop for a group of new graduate student instructors to practice teaching skills in advance of their first semester.

Leading Discussions in the Social Sciences and Humanities. 2002, 2003

Center for Research on Learning and Teaching, University of Michigan. Designed and facilitated a workshop for groups ranging in size from 11-68 graduate student instructors, focusing on preparation, activity choice, and facilitation skills. Helped attendees generate a toolbox of useful strategies and exercises.

SERVICE

SERVICE TO THE STATE AND COUNTY

Member, Priority Populations Team, State of Ohio Vaccination Plan, Ohio Department of Health, December 2020 – present

Member, COVID-19 Health Equity Workgroup, Ohio Department of Health, May 2020 – present

Member, Franklin County Public Health Equity Advisory Council, October 2020 – present

Member, State Health Assessment and State Health Improvement Plan Advisory Group, Health Policy Institute of Ohio, 2018 – 2020

Member, Health Equity Advisory Workgroup, Health Policy Institute of Ohio, 2017 – 2019

COLLEGE-LEVEL SERVICE

The Ohio State University College of Public Health

PhD Program Director, Division of Health Services Management and Policy, 2019 – present

Co-Chair, Diversity & Inclusion Committee, 2019

Member, Diversity & Inclusion Committee, 2018 – present

Member, Excellence in Teaching Award Committee, 2019 – present

Member, Outstanding Staff Member Award Committee, 2018 – present

Member, Community Engagement Committee, 2017 – 2019

Member, Magazine Redesign Committee, 2017

Chair, Ad Hoc Committee to Respond to the Events of November 2016, 2016 – 2017

University of Michigan

Founder, Interdisciplinary Social Science Workgroup on HIV/AIDS, 2003 – 2004

Facilitator, Workshop on Forming Successful Dissertation Workgroups, Sociology Department, 2002

Advisory Committee Member, Think Tank on Intersectionality and Health, Institute for Research on Women and Gender, 2001

Facilitator, Workshop on Faculty / Graduate Student Co-Authorship, Sociology Department, 1999

Student Representative, Admissions Committee, Sociology Department, 1998 – 1999

Student Representative, Executive Committee, Center for Research on Social Organization, 1998 – 1999

Co-organizer, Brownbag Lecture Series, Center for Research on Social Organization, 1998

SERVICE TO SOCIOLOGICAL ORGANIZATIONS

American Sociological Association

Co-Organizer, Comparative Historical Mini-Conference Program Committee, 2017 – 2018
 Elected Council Member, Comparative Historical Sociology Section, 2016 – 2019
 Member, Theda Skocpol Best Dissertation Award Committee, Comparative Historical Sociology Section, 2016 – 2017
 Co-Organizer, Open Panels for 2017 Annual Meetings, Comparative Historical Sociology Section, 2016 – 2017
 Committee Member, Best Scholarly Publication by a Graduate Student Award, Political Sociology Section, 2014
 Mentoring Coordinator, Sociologists' AIDS Network, 2013 – 2014
 Committee Member, Best Scholarly Publication by a Graduate Student Award, Global and Transnational Sociology Section, 2013
 Advisory Committee, Sociologists' AIDS Network, 2009 – 2011
 Organizer and Discussant, Political Culture: The Roles of Religion in Political Beliefs, Discourses, and Action Session, Annual Meeting in Atlanta, GA, August 2010
 Co-Organizer and Discussant, Special Session on HIV/AIDS: Transforming Politics, Transforming Communities, Annual Meeting in San Francisco, CA, August 2009
 Co-Organizer, Community Responses to AIDS: Looking Back/Looking Forward in Some Hard-hit Locales Thematic Session, Annual Meeting in San Francisco, CA, August 2009
 Chair, Organizing Committee for Sociologists' AIDS Conference "Marking 20 Years of AIDS in Sociology: Reflecting Back and Moving Forward" August 2009 in San Francisco, CA, 2008 - 2009
 Co-facilitator, "Writing Our Way: Forming and Sustaining Research/Writing Groups" Workshop, Annual Meeting in Boston, MA, August 2008
 Chair, Sociologists' AIDS Network, 2007 – 2009
