To our Friends of Moms2B,

As you may know, in light of the recent COVID-19 crisis, we at Moms2B have had to make temporary changes to our program’s operations. These include suspending in-person sessions. While we are still in contact with our moms by phone, we are working hard to support our moms in other ways. The families we serve are vulnerable populations and we fear they may be disproportionately affected by the virus, either directly due to their increased risk of illness or indirectly due to the absence of services, schools, lack of food.

With this said, we are happy to announce that we are partnering with LifeCare Alliance to provide delivered, frozen meals to our Moms and their children. Our immediate goal is to be able to provide 20 meals per household to our most in-need families. Our ultimate goal is to provide this to all of our Moms.

We are humbly asking any of our Friends of Moms2B to give in one of two ways:

1) If you are able to contribute financially, you can give directly to this program via LifeCare Alliance’s website. On their home page, click “Give Now” → “Give Now”. From there you can enter your desired contribution and choose from a drop down list of programs to donate to - Please select “Meals on Wheels” and fill in the required information. At the bottom of your entry there is a box labeled “comments”. Please enter “Meal Train for Moms/Moms2B.” The wording must be specific to ensure your contribution is designated for our moms.

2) Along with the frozen meals, we will be assembling resource packages that will include items such as soap, toothpaste, formula, baby wipes, toilet paper, paper towels, and light bulbs to be delivered with the meals. If you would like to contribute to these resource bags, please contact Linda DeGood at our front desk (614-292-1605) to schedule a drop off time at our office on Kenny Road or other locations.

We cannot thank you enough for the continued support you have provided to our moms and our team. We will keep you updated on how many families we have been able to feed and other needs as we discover them. Please forward to others you think may be interested in helping.

Thanks for helping us take care of our Families,
