The Ohio State University
Breast Cancer Disparities Research Training Program

The Ohio State University (OSU) invites applications from master level students to apply for a Breast Cancer Disparities Research Training Program. The program will provide trainees with opportunities to understand and eliminate disparities in breast cancer outcomes. Trainees will work with OSU researchers engaged in a wide continuum of breast cancer health disparity issues that span the cancer continuum, from etiology and prevention to breast cancer survivorship. Trainees will be supervised by a lead mentor as well as a secondary mentor.

As part of the training program, trainees will undertake a specialized curriculum composed of three main components: 1) core didactic courses; 2) elective courses; and 3) special program initiatives. The program will provide full support to the trainees including tuition, stipend, mentoring, and access to equipment, supplies, and pilot research support.

Trainee must:
- Be available to start at OSU on May 15, 2017 for one year of training.
- Be accepted into an OSU master’s program in public health, health sciences, or related disciplines.

To apply, send the following documents:
- Official transcript.
- Personal statement that includes career plans and demonstrates a strong desire for training in breast cancer disparities research.
- Three letters of recommendation.

Applications should be sent to:
Electra D. Paskett, Ph.D.
Marion N. Rowley Professor of Cancer Research and Director
Division of Cancer Prevention and Control
Department of Medicine
College of Medicine
Associate Director for Population Sciences
Comprehensive Cancer Center
1590 North High Street, Suite 525
Columbus, OH 43201
Electra.Paskett@osumc.edu

Closing date for application:
Friday, March 10, 2017 at 5:00 pm

For more information, please contact toyin.sokari@osumc.edu.

The program is fully committed to recruiting qualified women, minorities and individuals from underrepresented and underserved communities.
