

2016-2017 Curriculum Guide for Master of Public Health degree program with a specialization in ENVIRONMENTAL HEALTH SCIENCES

The Master of Public Health (MPH) degree program is designed to provide students with the knowledge and skills for general and specialized applied public health practice, both in the public sector and in private sector careers related to population health as environmental health specialists. It includes courses within public health's core disciplines of biostatistics, environmental health science, epidemiology, health behavior & health promotion, and health services management and policy. This broad training is complemented by the more in-depth course work within the specialization including a practicum and culminating experience.

Students admitted to the MPH degree program are assigned a faculty advisor who will provide guidance throughout the program. This document serves as a resource to be used by the student and the advisor in planning a program with a specialization in Environmental Health Sciences (EHS), but is not inclusive of all important degree, college, and university requirements. All students are expected to be familiar with the College of Public Health (CPH) *Graduate Student Handbook* (available at <http://cph.osu.edu/students/graduate/handbooks> and with the *Graduate School Handbook* (available at <http://www.gradsch.ohio-state.edu/>).

PROGRAM OF STUDY

The MPH-EHS curriculum consists of a minimum of 45 credits organized into five curricular domains:

1. Core courses in areas of knowledge basic to public health (15 credits)
2. EHS Specialization courses (19 credits)
3. Approved Electives (6 credits)
4. Practicum (2 credits)
5. Culminating project (3 credits)

Public Health Core Courses (15 credits)

Every student in the MPH-EHS program must take the following courses in areas of knowledge basic to public health:

Biostatistics PUBHBIO 6210	Design and Analysis of Studies in the Health Sciences	3 credits
Environmental Health Sciences PUBHEHS 6315	Advanced Environmental Health Science	3 credits
Epidemiology PUBHEPI 6410	Principles of Epidemiology	3 credits
Social and Behavioral Sciences PUBHHBP 6510	Preventing Disease and Promoting Health through Behavioral Science	3 credits
Health Services Administration PUBHHMP 6610	Introduction to Health Care Organization	3 credits

Required Courses in the EHS Specialization (19 credits)

PUBHEHS 5315	Principles of Toxicology	3 credits
PUBHEHS 5325	Principles of Occupational Health Science	3 credits
PUBHEHS 6320	Global Health and Environmental Microbiology	3 credits
PUBHEHS 7365	Principles of Risk Assessment	3 credits
PUBHEHS 7380	Exposure Science Monitoring Techniques	3 credits
PUBHEHS 7390	Major Human Diseases in Global Public Health	3 credits
PUBHEHS 7899	Seminar in Environmental Health Sciences	1 credit
