2018-2019 Curriculum Guide for Master of Public Health degree program with a specialization in BIOSTATISTICS

The MPH degree program is designed to provide students with the knowledge and skills for general and specialized applied public health practice, both in the public sector and in private sector careers related to population health. It includes courses within public health’s core disciplines of biostatistics, environmental health science, epidemiology, health behavior & health promotion, and health services management and policy. This broad training is complemented by the more in-depth course work within the specialization including a practicum and culminating experience.

Students admitted to the Master of Public Health (MPH) degree program are assigned a faculty advisor who will provide guidance throughout the program. This document serves as a resource to be used by the student and the advisor in planning a program with a specialization in Biostatistics, but is not inclusive of all important degree, college, and university requirements. All students are expected to be familiar with the College of Public Health (CPH) Graduate Student Handbook: http://cph.osu.edu/students/graduate/handbooks, the Graduate School Handbook http://www.gradsch.ohio-state.edu/) and the CPH competencies: https://go.osu.edu/cphcompetencies.

PROGRAM OF STUDY

The MPH-Biostatistics curriculum consists of a minimum of 45 credits organized into five curricular domains:

1. Core courses in areas of knowledge basic to public health (15 credits)
2. Required courses for the specialization (11 credits)
3. Elective courses (14 credits)
4. Practicum (2 credits)
5. Culminating project (3 credits)

Public Health Core Courses (15 credits)

Every student in the MPH-Biostatistics program must take the following courses in areas of knowledge basic to public health:

- **Biostatistics**
  - PUBHBIO 6210
  - PUBHBIO 6270
  - PUBHBIO 7245/STAT 7755
  - STAT 6450

- **Environmental Health Sciences**
  - PUBHEHS 6310

- **Epidemiology**
  - PUBHEPI 6410

- **Social and Behavioral Sciences**
  - PUBHHBP 6510

- **Health Services Administration**
  - PUBHHMP 6610

Biostatistics Specialization courses (11 credits)

- **Biostatistics**
  - PUBHBIO 6211
  - PUBHBIO 6270
  - PUBHBIO 7245/STAT 7755
  - STAT 6450

- **Design and Analysis of Studies in the Health Sciences**
  - Design and Analysis of Studies in the Health Sciences
  - Principles of Environmental Health Science
  - Principles of Epidemiology
  - Preventing Disease and Promoting Health through Behavioral Science
  - Introduction to Health Care Organization

- **Biostatistical Collaboration**
  - Biostatistical Collaboration

- **Applied Regression Analysis**
  - Applied Regression Analysis

*****Questions regarding the student’s program of study should be directed to their advisor*****
Electives: (14 credits)
Select a minimum of 14 credits from this list. Other courses may be approved to fulfill this requirement with permission of the advisor:

- PUBHBIO 5280 Introduction to Genomic Data Analysis 2 credits
- PUBHBIO 7215 Design and Analysis of Clinical Trials 2 credits
- PUBHBIO 7220 Applied Logistic Regression 3 credits
- PUBHBIO 7225/STAT 6510 Survey Sampling Methods 3 credits
- PUBHBIO 7230 Applied Longitudinal Analysis 3 credits
- PUBHBIO 7235/STAT 6605 Applied Survival Analysis 3 credits
- PUBHBIO 7240/STAT 6520 Applied Statistical Analysis with Missing Data 3 credits
- PUBHBIO 7255 Introduction to Causal Inference 3 credits
- PUBHBIO 8450 Stochastic Epidemic Models 3 credits
- PUBHEPI 6431 Design & Implementation of Health Surveys 3 credits
- STAT 6625 Statistical Analysis of Genetic Data 3 credits
- STAT 6730 Introduction to Computational Statistics 2 credits

Practicum
- PUBHLTH 7189 Practicum in Public Health 2 credits

Culminating Project
- PUBHLTH 7998 Culminating Project in Public Health 3 credits

Sample Curriculum Plan for the Master of Public Health in Biostatistics
(This is one option, students are advised to consult with their advisor for other options)

^Practicum (Public Health 7189) is to be completed Autumn Semester of Year 2. It may be completed during Summer or Spring with approval from the faculty advisor.

Grade Policy
In addition to the general Graduate School requirements of a cumulative grade point average of 3.0 or higher, students must meet specific college policies regarding grades in Core and specialization courses. Students should familiarize themselves with Section 11 of the College of Public Health Graduate Student Handbook.

Office of Academic Programs and Student Services (OAPSS)
OAPSS staff are available to provide assistance with College, Graduate School and University policies and procedures. Students can make an appointment with a staff member in OAPSS by calling (614) 292-8350.
OAPSS address: 100 Cunz Hall/1841 Neil Ave/Columbus, Ohio/ 43210/cph.osu.edu
