

2023-2024 Curriculum Guide for Master of Public Health Degree Program PROGRAM FOR EXPERIENCED PROFESSIONALS

The Master of Public Health-Program for Experienced Professionals with a specialization in Population Health Leadership and Management (PHLM) addresses the interaction between individuals, environments and systems and the integration of clinical care and public health. This fully distance-based program consists of an integrated approach to foundational public health knowledge, specialization courses concentrating on population health leadership and management, and an Applied Practice Experience and an Integrative Learning Experience. Students are advised throughout the program and career and professional mentorship is provided by faculty and staff throughout the college. This document serves as a resource to be used by the student and the advisor in planning, but is not inclusive of all degree, college, and university requirements. All students are expected to be familiar with the College of Public Health (CPH) *Graduate Student Handbook* (available at <http://cph.osu.edu/students/graduate/handbooks> and with the *Graduate School Handbook* (available at <https://gradsch.osu.edu/handbook> and the CPH competencies: <https://go.osu.edu/cphcompetencies>.

PROGRAM OF STUDY

The required courses will focus on leadership and organizational behavior, strategic change and operations management, project management, health care economics and economic evaluation of health interventions. The curriculum consists of a minimum of 42 credits organized into five curricular domains:

1. MPH Integrated Foundational curriculum including the Buck-IPE* (12 credits)
2. Required courses (19 credits)
3. Electives (6 credits)
4. Applied Practice Experience (2 credits)
5. Integrative Learning Experience Seminar and Integrative Learning Experience (3 credits)

*In addition to credit hour requirements, The Ohio State University College of Public Health requires all Master of Public Health students to participate in interprofessional practice and education activities. To meet this requirement, first-year students will participate in Buck-IPE, a longitudinal curriculum for students in health science and allied health professional programs at The Ohio State University. Information about participation and assessment will be shared with MPH students as part of the Integrated Foundational Curriculum (in PUBHLTH 6002 and 6004).
