

2021-2022 Curriculum Guide for PhD degree program with a specialization in EPIDEMIOLOGY

The Doctor of Philosophy (PhD) degree requires a significant program of study and research that qualifies the recipient to conduct independent high-quality research and communicate complex information in public health. In addition, the PhD graduate will contribute to the advancement of the field of knowledge. The emphasis is on mastery of the field and particularly on the acquisition of research skills as a basis for original work.

Students pursuing the PhD degree complete didactic and research courses. In addition, PhD students must successfully complete and pass a PhD Qualifying Exam, a PhD Candidacy Exam, Dissertation and Final Examination. Due to the expanded depth and scope of content and research, it typically takes a minimum of four years to complete the program requirements to earn the PhD degree. Graduates are prepared for teaching/research faculty positions in higher education and other positions in various public and private sectors.

Students admitted to the PhD degree program are assigned a faculty advisor who will provide guidance throughout the program. This document serves as a resource to be used by the student and the advisor in planning the program of study with a specialization in Epidemiology. All students are expected to be familiar with the College of Public Health (CPH) *Graduate Student Handbook*: <http://cph.osu.edu/students/graduate/handbooks> the *Graduate School Handbook* <http://www.gradsch.ohio-state.edu/> and the CPH competencies <https://go.osu.edu/cphcompetencies>.

PROGRAM OF STUDY

The minimum total number of credits required to earn the PhD with a specialization in Epidemiology is 90. Students are expected to enter the program with a master's degree or equivalent. With approval of the student's advisor and Advisory Committee, up to 30 credits of appropriate master's level course work can be counted toward the PhD. Additional requirements for courses and distribution of credits are provided below. Students should work closely with their advisor to develop a tentative curriculum plan during the first term of their enrollment. In collaboration with their advisor, students are encouraged to form their Advisory Committee during their first year in the PhD program.

Major Field

Required Foundation Courses:

PUBHTLH 6010+ Essentials of Public Health	3 credits
PUBHBIO 6210+ Design and Analysis of Studies in the Health Sciences	3 credits
PUBHBIO 6270+ Introduction to SAS for Public Health students	2 credits
PUBHEPI 6410+ Principles of Epidemiology	3 credits

**Not required for students with a CEPH-accredited master's degree*

Required Specialization Courses:

PUBHEPI 6411^	Biological Basis of Public Health	3 credits
PUBHEPI 6442	Social Epidemiology	3 credits
PUBHEPI 7410	Epidemiology II & Lab	4 credits
PUBHEPI 7430	Epidemiology III	4 credits
PUBHEPI 8430	Epidemiology IV	4 credits
PUBHEPI 8899.01	Professional Skills for Public Health Doctoral Students	1 credit
